

DURAT® For Hospitals

Durat For Hospitals

Solid Surface for health care has been the standard, but Durat brings a design element into an otherwise sterile space. Colors can liven up all hospital environments, whether they are children's hospitals, patient rooms, waiting areas, nurses stations or pediatric units, Durat offers standard whites and greys, as well as many other vibrant colors, reds, yellows, greens...or even custom colors. With its unique look and warm feel, Durat takes solid surfacing to the next level in hospital design.

For samples of a color, please call us at 919 929 3009 or email durat@caragreen.com.
