CARE AND MAINTENANCE GUIDELINES

SUMMARY OF MATERIAL

ElementAl surfaces take plastic and metal from the post-consumer waste stream and meld them together into a stunning, easily machined surface that not only performs well, but offers a seamless solution to an industry problem of recycling.

CLEANING PROCESS

Mix 1 part Chlorine Bleach with 3 parts warm water.

Dampen a soft cloth with the liquid and lightly go over the surface.

Immediately dry with a soft clean cloth, do not let the liquid sit on the surface for long periods of time.

APPROVED CLEANING AGENTS

Gentle liquid cleaners (free of bleach and ammonia)

Denatured alcohol or mineral spirits with a soft cotton rag for aggressive dirt spots
